COMBI-PRO-ADVANCED STABILISER FIBRE

Pulverised nylon and rubber fleck

 **Nationwide Delivery**

-  **Increased Moisture Retention**
-  **100% Pre-Consumer Blended**
-  **Improved Root Structure**
-  **Installation Available**
-  **Enhanced Stability**
-  **Low Maintenance**

Combi-Pro Advanced Stabiliser Fibre is our premium solution. Designed to provide you with the best fibre surface additive for horses of any discipline, this stabiliser uses our dual stabiliser solution blended with 100% pre-consumer poly fibre.

This advanced option is used by many equestrian enthusiasts to improve performance for practice and professional events.

Suitable for use with any of our pre-mixed products or existing sand and fibre surfaces, Combi-Pro Advanced Stabiliser Fibre is the UK's leading sand stabilisation solution.

I used Combi ride 3 times, I have attached the photo of our arena its excellent I upgraded to full wax surface this time, it rides really well, does no go too hard but also does not move. Happy to recommend

★★★★★

Mike McKinlay

Top people , top service, top arena surface

Andrew Neal

*As with all sand and fibre surfaces, for optimum performance Dual stabiliser may require additional moisture and maintenance during long spells of dry weather to prevent fibres rising to the top of the surface.
