## COMBI-WAX

Wax-based emulsifier

**Nationwide Delivery**

**Reduced Repetitive Strain Injuries**

**Additional Enhanced Stability**

**Cost-Effective Rejuvenation of Wax Surfaces**

**Reduced Kick Back & Dust**

**Lower Maintenance**

**Suitable for any Type of Arena**

Combi-Wax improves ground performance and enhances the riding experience for horses of all disciplines. Developed exclusively for Combi-Ride by the world's leading equestrian wax manufacturers, Combi-Wax guarantees results.

Wax-based emulsifiers require less water to maintain hydration, prevent hardening and reduce dust. So you'll find yourself spending far less time on irrigation and upkeep.

Combi-Wax contains very low volumes of oil, which reduces negative environmental impacts, and decreases the amount of excess oils that are usually washed away in the rain.

Contact us now to find out more and receive a personalised quote!

Outstanding surface for both my arena and pens, highly recommended. Excellent aftercare service as well.

Rob Otter

Top people , top service, top arena surface

Andrew Neal

\*As with all sand and fibre surfaces, for optimum performance Dual stabiliser may require additional moisture and maintenance during long spells of dry weather to prevent fibres rising to the top of the surface.
